

# Doypacks - Recyclable

## White Recyclable Polymer

(PE/EVOH/PE)

### Recyclable, versatile and colourful

A white recyclable polymer structure that's perfect for vibrant designs. Heat-sealable design with top barrier protection for a range of goods.

Top-coating (gloss/matt)  
Full-colour print (CMYK & white)  
Barrier layer  
White heat sealable layer

 **Eco-friendly protection:** the whole doypack is classified as 4 LDPE recyclable, thanks to its all PE structure. Combined with heat sealing, this material also provides long-life freshness for a whole range of goods.

 **Full customization:** the white base provides the perfect canvas for full-colour branding. With up to 10 designs falling under the one MOQ, you can tailor every inch of your doypacks for your whole product range.

 **Seamless:** Expect nothing less than the highest quality packaging delivered efficiently with flexible payment and logistics options.
