

Doypacks - Compostable

Compostable Kraft

(PAP/NatureFlex™/PLA)

Eco solution with barrier protection

Heat-sealable and made from coated kraft paper with a choice of closures and corner details. Available in brown or white with full-colour printing.

Full-colour print (CMYK & white)
White or brown kraft paper
Cellulose barrier protection
Heat sealable layer

Eco-friendly solution: PaperWise kraft paper is made from 100% agro-waste, cellulose (film) and bioplastic (coating). All components meet EN 13432 standards (industrially compostable). Durable bio-based inks are used to deliver your full-colour prints.

Full customization: with up to 10 designs falling under the one Minimum Order Quantity (MOQ), you can cover your whole product range and tailor every inch of your doypacks to your product and branding needs.

End-to-end support: your order will be guided through by a team of packaging experts. Expect nothing less than the highest quality packaging delivered efficiently with flexible payment and logistics options.
