

# Doypacks - Non-Recyclable Kraft with Alloy

(PAP/PET/AL/PE)

## Full-colour freshness with a quality feel

A kraft paper outer layer provides the perfect canvas for full-colour prints, while an alloy barrier locks in freshness for a big range of products.

Full-colour print (CMYK & white)  
White or brown kraft base  
Polymer layer  
High barrier aluminium layer  
Heat sealable layer

**Extra freshness:** the high barrier properties will extend the shelf-life of your products, while the aluminium gives the pouch a firm and quality touch.

**Full customization:** you can cover all your branding needs with full-colour prints on white or white kraft paper. And do it for your whole product range by including up to 10 designs under the one Minimum Order Quantity (MOQ).

**End-to-end support:** your order will be guided through by a team of packaging experts. Expect nothing less than the highest quality packaging delivered efficiently with flexible payment and logistics options.

## Features

straight corners

euro slot

rounded corners

tear notch

aroma valve

zip lock

## Technical data sheets

- FSC®
- Declaration of conformity
- Global migration testing

## How to recycle?

General waste

- Baked goods
- Pickled foods

### Non-food products like:

- Scrubs, creams & facial masks
- Detergents (tablets/powder/liquid)
- Jewellery & apparel
- Electronics & accessories

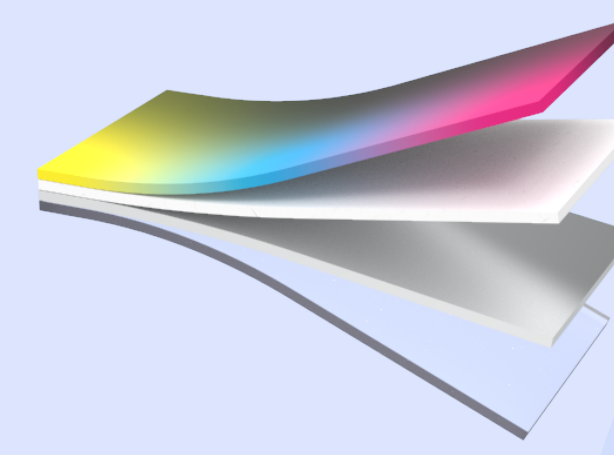

# Doypacks - Non-Recyclable

## Kraft with Polymer Barrier

(PAP/PETmet/PE)

### Superior barrier protection with a touch of kraft

A hybrid structure with the earthy texture of kraft on the outside and a polymer internal barrier for long-life freshness.

Full-colour print (CMYK & white)  
White or brown kraft paper base  
Metallic polymer barrier layer  
Heat sealable layer

★ **Best of both worlds:** this structure mixes the touch and aesthetics of kraft paper with the high-barrier properties of a polymer barrier. Combined with heat-sealing, this ensures a long shelf-life for a range of products.

🎨 **Full customization:** choose from white or brown kraft paper for your full-colour prints. With up to 10 designs falling under the one MOQ, you can cover your whole product range.

🌱 **Low footprint:** you can pack more of your product for less with this light, flexible and efficient solution. This means guaranteed freshness with reduced materials and transportation emissions.
