

Doypacks - Non-Recyclable

Metallic Polymer with Alloy

(PET/AL/PE)(PETmat/AL/PE)

A sleek all-rounder with guaranteed freshness

A highly versatile hybrid structure designed to maximise the shelf-life and freshness of a wide range of products. The sleek finish will bring out your colours.

Top-coating (gloss/matt)
Full-colour print (CMYK & white)
High barrier aluminium layer
Heat sealable layer

Guaranteed freshness: the high barrier properties will deliver long-life freshness for your products, while the aluminium gives the pouch a firm and quality touch.

Full customization: choose from a matt or gloss coating to make your full-colour prints stand out. With up to 10 designs falling under the one Minimum Order Quantity (MOQ), you can tailor every inch of your doypacks for your whole product range.

Low footprint: you can pack more of your product for less with this light, flexible and efficient solution. This means guaranteed freshness with reduced materials and transportation emissions.
