

Doypacks - Recyclable

Recyclable Paper

(PAP)

Recyclable paper with plastic-free barrier protection

Recyclable uncoated paper with a plant-based barrier coating. Heat-sealable and available with a choice of closures and full-colour (CMYK) printing.

Full colour print (CMYK & white)

White kraft paper

Heat sealable and barrier protection layer

Eco-friendly solution: completely plastic-free, the whole doypack can be disposed of in standard paper recycling. The secret is in its special plant-based barrier, while durable, eco-friendly inks are used to deliver your full-colour prints.

Low footprint: you can pack more of your product for less with this light, flexible and efficient solution. This means guaranteed freshness with reduced materials and transportation emissions.

Dedicated team: an account manager and team of packaging experts will ensure that every inch of your doypacks meets your precise needs.
